

Bulletin of the Allahabad Mathematical Society

CONTENTS: VOLUME 27, PART 2, (2012)

Arif Rafiq		
Mann type iteration method involving two strictly hemicontractive mappings in Banach spaces		133-141
Gajanan. A. Dhanorkar and J. N. Salunke		
Semicompatibility and fixed point theorem in an unbounded G -metric spaces		143-158
B. Davvaz and S. Mirvakili		
Hyperideals in ternary semihyperrings		159-185
Xhevat Z. Krasniqi		
On $\varphi - C, 1 _K$ summability of orthogonal series		187-195
B. S. Choudhury, E. Karapinar and A. Kundu		
Tripled fixed point theorem in partially ordered partial metric spaces		197-217
Saurabh Porwal and K. K. Dixit		
A note on convolution of analytic functions		219-225
L. E. Azar		
An extended form of the discrete Hilbert inequality		227-238
Dibyendu Banerjee and Nilkanta Mondal		
Growth of generalized iterated entire functions		239-254
