

Bulletin of the Allahabad Mathematical Society

CONTENTS: VOLUME 28, PART 1, (2013)

| | |
|-----------------------------------------------------------------------------------------------------------------------------------|---------|
| R. C. Sahu, Bishnukar Nayak and B. Behera Viscous and mesonic viscous fluid models in bimetric theory of gravitation | 1-17 |
| J. P. King Mandelbrojt's singular point | 19-33 |
| C. J. Mozzochi The application of near sets to general relativity | 35-88 |
| Prasanta Malik and Manojit Maity On rough convergence of double sequences in normed linear spaces | 89-99 |
| George A. Anastassiou General Grüss and Ostrowski type inequalities involving s -convexity | 101-129 |
