

Bulletin of the Allahabad Mathematical Society

CONTENTS: VOLUME 28, PART 2, (2013)

A. Garai and S. Ray

Convexity conditions for the higher order symmetric
Laplace derivable functions 131-152

Johnsy S. Prasad and A. R. Rajan

A generalization of the translational hull to automata 153-163

Xueqin Wang, Chunlin Lei and Chunfang Chen

Uniqueness of entire functions concerning small functions
and shifts 165-173

P. N. Natarajan

Product theorems involving (N, p_n) and (M, λ_n)
summability methods 175-182

Jayaprasad P. N.

On singly generated extension of a frame 183-193

Kailash Lachhwani

Fuzzy goal programming procedure for multiobjective
linear-plus-linear fractional programming problem 195-216

R. Anantharaman

Banach spaces in classical Harmonic Analysis 217-241

Published by: The Committee for Publications, The Allahabad
Mathematical Society, 10 C.S.P. Singh Marg, Allahabad, U.P.,
