CONTENTS

I. J. Kumar and V. R. Thiruvkatachar	
Heat flow induced in a finite composite cylinder by harmonic variation of surface temperature	47
C. T. Rajagopal	
Convergence and summability of a class of Fourier series	63
M. S. Rangachari	
Remark on some Tauberian theorems for Nörlund summability	73
Ram Kumar	
Propagation of small disturbances in electrically conducting inviscid liquid contained between two infinite co-axial cylinders in the presence of magnetic field	77
T. Pati	
A generalisation of a theorem of Iyengar on the harmonic summability of Fourier series	85
